MAKE 2016 YOUR YEAR TO SHINE!

You've worked your tail off all year, hoping it will be acknowledged by a nice 'holiday bonus.' But, instead, you're told the company wasn't profitable, and budget cuts must be made. It's a nice way of saying not only will the year end on December 31st, but so will your job!

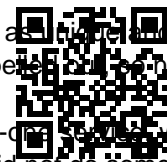

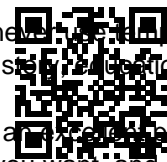

You're understandably distraught, but no good will come by sitting and moping, so pick yourself up, and look at the bright side. Now, rather than dragging yourself to a job you never liked anyway, take this opportunity to do it right. Find a company and position that will appreciate and value your exceptional skills and extensive experience. THEY ARE OUT THERE!

The problem isn't you, but rather your approach.

The first, and most important step to finding that dream job starts with a PROFESSIONALLY PREPARED RESUME AND COVER LETTER.

As a smart individual, I know you believe producing an effective resume is a piece of cake. If it was there would be no need for me, a CERTIFIED PROFESSIONAL RESUME WRITER, (and Technical Writer) and the thousands others like me to even exist! Yet, most of us are pretty busy. Why? Because writing an effective resume, in both content and appearance isn't as simple as it appears. You don't need to be a great writer to produce a great resume; you NEED TO BE A GREAT RESUME WRITER! It's a very specialized niche that far too many believe they are qualified to do, but the proof is in the pudding, as they say!

AS A CERTIFIED PROFESSIONAL RESUME WRITER, IT'S MY JOB TO HELP PEOPLE WITH THEIR CAREER AND JOB SEARCH NEEDS. Of course, first and foremost is producing a resume [and cover letter] that will highlight the skills, experience and other attributes you have that are most relevant to your career goals.

MY RESUMES WILL MAKE YOU SHINE (MINNEAPOLIS OR REMOTE)

Each resume I write is customized to your particular needs. I need to see resumes, and I will receive a resume that is a high quality original. In a recent year, I have most relevant to your needs, each resume work history, education, etc. and your job title and specialty. Nothing is too good for you. I will bend over backwards to further your needs. You will not only receive a resume, but also a personal on-line review, whether you're in the state or down under. You can ask me any and as many questions as you want, and I'm always happy to explain why I did or did not do something. I will bend over backwards to accommodate your needs any way I can!

As a holiday "gift," I am offering all writing services at a 20% discount. This includes resumes, cover letters, and LinkedIn profiles. But, that's not all. Remember, I'm a technical writer as well. So, I can produce reports, articles, web content, statements of purpose, personal statements/letters of intent, reviews, promotional copy, letters, business and marketing materials, brochures, newsletters, and just about anything else you can dream up, other than fiction. I also edit manuscripts, do outstanding research and there hasn't been a subject matter or job industry I couldn't handle.
