Need your car towed to the mechanic shop? Broke down and just need it towed to your home until you can have it fixed? Moving and can't drive 2 cars? I will tow your car on my flatbed car hauler to your destination for a very reasonable rate. I am very experienced, I can move your car/shed/parts on my trailer, so if it's running or not, I can handle it!!! I also move/haul sheds, storage containers, land scape boulders, building materials such as pallets of shingles or bags of concrete, basically any large or heavy object that needs to be moved from one place to another, I am the one to call. My truck can haul 11,000 lbs and the winch helps get the heavy stuff on the bed, and the bed tilts down to the ground to make it easier to get stuff on and off. Just because I have a wrecker doesn't mean it only hauls vehicles!! This is a work truck that can handle just about anything you can throw at it. I work mostly in Harrison, Hancock, Jackson counties call or text any time!! I'm available 24-7 check out my website <http://shonufftowing>
