Here is your winter project. The legend, ZX11. Finally convinced myself to put it up for sale. Its been sitting up in the garage for a few years so its gonna need a tune-up and carb cleaning. Before I put it down, I had the shocks rebuilt and replaced the front sprocket and chain. I purchased a new fuel pump but haven't put it on yet. I have all body parts except the windscreen. As you can see from the pics, the body isn't damaged. The original tank started having rust leaks so I bought one from ebay. It will have to be cleaned out and probably coated. It will also need a battery. I also have manuals from the factory, Haynes, and Chilton. When it was running right, this thing was all kinds of fun. Its been sitting too long and someone else needs to enjoy it as much as much as I don't really want to sell it. Clear title. Give me your Best.
