2005 Yamaha R6. ONLY 2500 MILES. I bought it, then left the country for a while. I have kept up the maintenance, but just do not have time to ride. Now a kid is on the way.

I just replaced all the fluids, battery, did general maintence, and throttled up to about 90mph. It is riding great.

It comes with a cover, matching Aria black/red helmet, matching summer red/black leather jacket, winter heavy black leather jacket, gloves, tools, excess fluids/cleaner/lubricants, and several other items lying around. I can help you move it in my truck, if not too far.

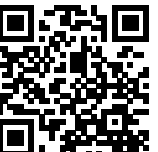

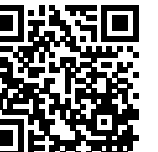

Thanks

After-market Yoshimura exhaust.

The bike has been garaged its whole life.
