I know this sounds weird.....but I need clean urine from a male person to pass a pre-employment drug test. Dream job opportunity came up unexpectedly but I just had a 420 weekend with friends. \$20 for a clean pee sample (verified by home drug screen from CVS). We can meet somewhere public with restrooms. You go pee in the home drug test bottle and then go home \$20 richer. Only requirements are the subject must be male and pee completely clean.

Email if interested in making some easy money. Boston.
