I am looking for someone to provide me with QTY 4 wooden boards with the dimensions below that have been sanded and painted flat black:

33 inches long

9 inches wide

1/4 to 1/2 inch thick

If you can do that, email me and let me know how much you'd charge for the whole project. I'll respond to the lowest bidder and we can set up a meeting to make the exchange. I won't respond if you just ask me to call.
