Are you looking for a fantastic preschool for your child? Would you like 15% off the tuition cost for the entire year? Consider Challenger School. Through music and activities, Challenger preschoolers begin learning phonics, science, and numbers. Their Challenger songs and tools make this learning fun and rewarding. Three-year olds read sentences and four-year olds read little books. From the minute students enter the door in preschool, they are taught to apply logic and reason to the world around them. They learn to recognize patterns and essential similarities among differences in everything from art to mathematics. Rather than learning unrelated facts, students learn conceptually, making hierarchical connections for a more complete view of their world. They become rational thinkers. Challenger emphasizes the bedrock of knowledge: reading, composition, math and history. They promote individual and independent thinking, teach traditional American history and values, and inspire children to embrace challenge and to find joy and self-worth through achievement.

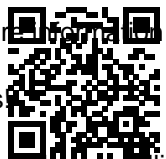

Our son is in his second year of preschool at Challenger, and he will be attending kindergarten there in the fall. He loves school at Challenger! He started off last year in a three half day program but he loved school so much that we quickly switched him to a full day program. This year he went from a three full day program to a five full day program. He just can't get enough of being at Challenger school. And we have found that it is true that students who get five consecutive days of teaching and review have better retention which yields quicker gains in social relating and academic skills and in the ability to stay focused on a task. Our son has flourished being there every day. Challenger uses an amazing phonics curriculum in their preschool classrooms. Our son was reading before he turned 4! A lot of their teaching is done through songs, which really helps the students retain information. We have found that the teachers at Challenger School have very high standards for their students and encourage them to their achieve their full academic potential.

The best way to understand the Challenger difference is by visiting a school. So please, tour a campus near you and see for yourself why so many discriminating parents choose Challenger. After touring a campus if you decide that Challenger is the right preschool for your three or four year old and you enroll them in a 5-day program please let them know that L. & I. Warwood, parents of a student attending the Los Prados campus in Las Vegas, referred you so that both of our families can enjoy a 15% tuition discount for the rest of the 2015/2016 school year.
