Here is the deal. I am mid remodel. I am doing a little bit at a time. We just finished installing new flooring from dirt up. It was kind of a no notice kind of thing. There is construction dust EVERYWHERE. I need someone to clean it up. I need you to move all my stuff outside. Clean up from top to bottom. I am giving away most of my furnishings. So you will only move it out. My house is tiny, 1.000 sq ft. I will pay you. It is not mind numbing work. I just need some muscle and oomph. I am a care taker for my mom who has cancer. This is part of the reason I can't do it all on my own. My kids and I will be at my moms so if you are a night owl feel free to work at night. I will pay you after the job is finished. Also, if there is any of the things I am donating you want you can have. Thank!
