PUPPY SHIPPING SCAM. BEWARE.

Location **Florida** https://www.genclassifieds.com/x-725242-z

In a search for a second dog, I have come across the same person with multiple listings of different dogs who tries to tell you a sob story of how they moved out of state and must ship the dog.

Never use a Money Gram or pay to have a dog shipped.

Never give out personal information.

Ask to see more pictures of the dog in question and set up something to see the dog in person.

There's a lot of sick people out there who have nothing better to do than post fake puppy ads and try to scam people out of their.
