Bass player looking for band in Columbia or surrounding area. Original or band close to playing out. Cover band is OK also.

I have good gear. A way to transport and some PA gear also. I can play most styles but prefer a more modern sounding project. However I'm not that in to speed,dark metal or vintage southern rock. Modern pop/rock country is Ok also. I have plenty of gig experience. I prepare my parts at home and come to play.
