

Diamondback 1994 Ascent Hybrid Restored amp ProTuned 20 (400 USD)

Location **Washington**

Why is this bike more than some others ?
First - Condition. When you see it you'll know.
It's also had a ton of work done recently.
Second - Coolness. This bike was made back when
some of the best bikes ever were made. A 1994
Klein Adroit might set you back \$5000.
Third - Quality. This bike has a lot of this with True
Temper tubing, cool I-beam steering stem.
See all the new bikes you can under \$500 then see this one.

SPECS

Beautiful Diamondback Ascent completely Restored (polished too) ProTuned & guaranteed.
AFAICT it's a 1994 according to a UK web site & Bikepedia.
More than a Drive Train Clean & Pro Tune were done.
Some new parts too, and rare goodies to boot.

More Details

20" measured to top of top tube.
True Temper AVR double-buttressed steel frame shines like new.
Some paint dings but no dents, no rust, no issues. Waxed too.
