I make art every day. I make art in various mediums, painting, drawing, sculpture, audio, video, poetry, and I have a graduate school background in East-West intercultural communications/psychology/art...etc. I'm a very well educated middle aged white guy, who is in a solid relationship with someone who is Asian, but who is not into Art, not into making art, not into collaborating on Art, etc. So...just putting this out there...I'd like to make some friends who are Artist's, with an Asian background...I've spent most of my time with Asian people from various countries, for the past 30 years. Anyone interest in friendship, mutual Artist support like "So, what are you working on?" chats over lunch, let me hear from you. Other Westerner's also interested in East-West studies and art etc, welcome also.....your' age and/or experience doesn't matter to me much as long as you have real interest and/or passion for these things and would like to meet people like me who share a similar passion. In a perfect world, this CL ad will help me meet and become frineds with 1 or 2 other artist's I can work with, or just be friends with and hang out with for years...
