You're still out here begging on a daily basis??? You beg for food yet your underwear size is 4X1.....WTF how fat are you!!!! You need to lose weight not beg for food. No wonder you have congenital heart failure with your heart trying to lug your fat ass around...let me guess you smoked your whole life and now you're screwed with your lungs black little pieces of shit and now you want sympathy. Umm, no , go fuck your self. You should of bought lettuce with that walmart card you got instead of a truck load of pasta to go straight to your fat.
