HABITRAIL

All items in the photos are included as well as an elevate, removable wire floor (original from Habitrail manufacturer). Overall good condition although one hinge of one red lid/trap door is broken (please see last photo). Easy to fix by creating a hinge... drill a small hole then fasten both pieces together with a wire... duct tape would also work. The hinges are light weight plastic which I would reinforce anyway. All proceeds will go to feeding my young daughter's piggy bank. \$5

Located in Allyn, WA (5 minutes from downtown Belfair in north east Mason County). Please contact me through Craigslist email, include your phone number. No text messages, sorry.
