

This is a 2000 Chevy C3500 with a 350 Vortec Engine. It was a city maintenance vehicle from Omaha, Nebraska from new to 50,000 miles. Then sold at an auction and he put on 500 miles and sold the truck to me in which I've driven the truck 2,000 miles.

New Fuel Pump
New Starter
New Alternator
New Battery
Oil Change
Oil Filter

- brake pads
- roaters
- ball joints
- windshield
- windshield wipers

Body condition is good. Mechanically it's excellent. I've put in most of the work. For a good price someone can steal this. I'm not budging on the price. I had 2 buyers at this exact price for a machine with the fixes I want to sell the machine. I'll move on leaving the rest on the table to sell.

Cosmetically new wings. Crack in the windshield. I've never bothered to. Passenger side door handle is welded in. Fawcowl rust spots has been sanded and painted and here is green, but I don't think anyone would buy this.
