

C3500 CHEVY FLATBED (53,000 USD)

Location **South Dakota** https://www.genclassifieds.com/x-730507-z

Located in St Paul, Minnesota.

This is a 2000 Chevy C3500 with a 350 Vortec Engine. It was a city maintenance vehicle from Omaha, Nebraska from new to 50,000 miles. Then sold at an auction and he put on 500 miles and sold the truck to me in which I've driven the truck 2,000 miles.

In the past month I've done this work to the truck:

New Fuel Pump

New Starter

New Alternator

New Battery

Oil Change

Oil Filter

In the next 1-2 years I'd recommend:

brake pads

roaters

ball joints

windshield

windshield wipers
