Hey, I have been playing Guitar for a long time now about 8+ years or so. I have my own music I have written and I really enjoy playing Metallica songs. Back when I lived with my cousin we use to Jam out and that was a lot of fun and I really miss doing that, we planned to play live but I ended up moving back to GA, so I would like to try and play live sometime with someone or a band. I like to sing and play at the same time, get my frustrations out ya know? so if your a drummer, I would love to arrange a time to play some of my original music, and some metallica and we can write new songs together or even try some you have written, contact me if interested
