

# Looking for a videographer/director for LGBT music video (Detroit)

Location **Michigan**  
<https://www.genclassifieds.com/x-730713-z>

Hello, I am a gay artist from here in Detroit, and I am looking to shoot my very first music video.

I already have somewhat of a concept, I just need the perfect person to help bring it to life. As far as the location for the video, I want an all white background like most rap music videos have you know? I have no idea if there are any warehouses that would even allow us to do it or some abandoned building. Im hoping for someone that is willing to work with me, because i'm new to all this, and i'm just starting out with this, I'm not mega-rich, i'm a broke college student lol. But I believe in this movement and I really want to inspire with this music video! Ideal director would be someone like myself, young just starting out, hungry for experience. But not opposed to professionals!
