Do you know what Kodi is?

Do you have a Fire TV, Fire TV Stick, Nexus Player, Nvidia Shield, or Android Set Top Box?

If you answered yes, this gig will be easy for you. Now, here's what the job is:

I program, install, and troubleshoot devices with Kodi. (For those that don't know what Kodi is) Kodi allows you to watch any Movie, TV Shows, Fights (UFC and Boxing) on PPV, Live Sporting events for FREE. All is needed is a TV with an HDMI port and a reliable wifi connection.

You refer people to me and once they buy my device you get \$20. I pay via paypal (or in cash if you prefer to pick up the money in Hawthorne). Now, a lot of your friends may have multiple TVs so this could be an easy way for you to rack in an easy \$100+ just by talking to your friends and family.

I used to work in sales and felt bad "selling", but this service can help friends and family members break away from Cable which will save them money. They save money. You make money. Everyone wins.

Feel free to respond via email or text and I'll send you a link of my craigslist ad. I'm in the middle of making a website, Facebook page, and flyers to help you sell more efficiently.

THERE'S NO MONEY REQUIRED ON YOUR END WHATSOEVER. Just be yourself and refer people.
