I have four used Continental tires size 215-60R-16 with 5/32- 6/32 of tread remaining. They are fairly evenly worn. I will sell them for \$15 each or \$50 for the set. I needed to buy new ones because I have a long road trip to take of over 10,000 miles. I would say they have about 10,000 miles of tread remaining but I didn't have any warranty with them for road hazards and I would have had to buy all new tires upon the return from my trip. So it made sense to just buy them now. If I didn't have to take this road trip, I would never have replaced these tires. They are a T speed rating and passed state
