I'm a Freelance Visual Branding Consultant who offers design services for individuals and small businesses. If you have a brand you are trying to promote and need a logo, need type for a sign/ banner, poster/flyer or are simply an individual looking to have something custom designed, I can help create your idea.

Any reference material (i.e. Photos, sketches, words, emblems etc.) I need you to include in your email reply. I'll be happy to mock something up for you to see if we are headed in the same direction and adjust as needed to ensure you're satisfied.

I expect a professional "client to client" relationship; meaning communication is key and I get paid for the work I do for you. Cost and estimated budget we hash out after discussing project details.

Consulting Services require an extra fee

Job contract to be signed before any projects begin

Thank!
