

# Musician Casting Major Record Labels, Touring Musicians

Location **Tennessee**  
<https://www.genclassifieds.com/x-731176-z>

We are looking to expand our network of musicians as well as our major record labels, record label, management companies, etc.

## Musician Casting

Launching in 2016, Musician Casting is the first online network for the music industry! Musician Casting ([www.musiciancasting.com](http://www.musiciancasting.com)) is a software development company offering an elite casting service for musicians, crew, and music professionals in the music industry. We are bridging the gap between music professionals and their search for talent by offering the largest casting network of professional musicians and crew in the industry. By organizing talent information such as contact information, resumes, video, and headshots we are simplifying the connection process. The simple and concise design provides both talent and music professionals an easy to use interface that has professionalized the music industry networking process.

Since its introduction, Musician Casting has become the standard connection and casting platform for musicians and crew. These amazing opportunities are mostly from partnering up with the best record labels, music directors, agents, and management companies in the industry. As a result Musician Casting has helped countless musicians and crew book tours, gigs, and other work all over the world.

Musician Casting is the first of its kind. Unlike other websites we are NOT a referral service or agency, meaning you are never submitting to Musician Casting or its affiliates. There are numerous other websites that "post" or "repost" opportunities to drive users to their website. Your submission to them

warrants no guarantee they will ever pass your information on to the correct employer. Musician Casting is a direct opportunity, meaning sure you submit your profiles and 2015 information directly to the top record labels, music directors, agents, and management companies looking for talent.

Musician Casting is a public platform, meaning anyone can control your information. There are no fees or "premium" priority accounts. Everyone has the equal opportunity to book a job, audition, or project. Furthermore, Music Professionals have the opportunity to connect with the exact talent they need for any given situation.
