If you have an eye for visuals, and can take HIGH quality images, then this may be for you. Must have a camera and or a smart phone with no less than a 10 MP camera. If you don't know what that means, this may not be up your alley :-). You also need a laptop and a strong desire to be successful, meaning you must be willing to shoot a TON of pictures. We have Christmas, New Years, and Valentines right around the corner, so tons of work to be done, time to get trained!

Our best people have learned how to make \$400 per day taking pictures. I know, it sounds crazy, but its' true. If you have a collection of photos you have already shot, then you may have a gold mine and not even know it! Companies need pictures more and more now that we have reached the digital age. Pictures have never been so high in demand. Get in while there is still relatively low competition.

Serious inquiries only please. Thank you, and have a great!
