I have Beautiful Males and Females Neutered Black Pug Puppies that I need to find a new home for them.

They are very friendly and loving. They love to be your shadow. I prefer someone that is home most of the time to spend time with them. They get along with other dogs as well as other animals too. They are up to date on shots and on multi advantage monthly a preventive for fleas and ticks. They also have had their teeth cleaned. If interested or have any further questions please let me know via text or call on ..
