Hey everyone I know this might be a crazy post to some, but worth trying and asking, I need a cosigner to trade my Present car I'm in a high interest loan, so dealership request I get one to be approved . I have the income to pay on time like I have with this present loan.

I would like to just use you for 12 months until I can refinance car around same time next year and get your name of loan.

So if you credit score is at least 640 or better we can make this happen.

Once approved and we can do this and do paperwork I will pay you 300.00 cash on spot please let me know asap.

Would like to do this today.

Serious people only please.

Leave me your number

Thank you in
