I am a website developer and graphic designer. I can help you with websites, logos and ore.

Here is a testimonial from one of my clients. I encourage you to visit my website for more information on myself and examples of my work.

"We contracted David to upgrade and enhance our website recently and we were extremely happy with the final product. He was very easy to work with, as we were in constant communication trying to arrive out our end vision. His graphic and design skills are impressive and come at a very reasonable price. We have received compliments on the upgrade from executives from major companies and I have personally already referred 3 people to his site who were in need of graphic design work and website building. We definitely plan on using David again in the future, it was a pleasure."
