Here is a sample of the level of detail we need in your writing sample:

We arrived at the restaurant at 5:40 for our 5:45 reservation. The hostess greeted us in less than a minute from our arrival. She asked if we were on a wait list, and we said yes. She picked up menus and walked us to our table. She waited until we were seated before handing us the menus. Our server, Lisa, came over 1 minute later and asked for our drink orders. We both ordered Cokes. She left to get them and returned within two minutes with the drinks. Lisa asked to take our order at that point. My quest ordered a personal sized pepperoni pizza. I ordered a meatball sandwich with a side salad to be brought with the sandwich. The entire order was delivered 20 minutes later. The food was served at the front of the restaurant. The pizza was delivered on a small round plate. It was cooked to a proper level of crispness, but there were not many pieces of pepperoni. The side salad arrived with dressing on the side. The meatball sandwich was cooked to a medium level and there were some slices of cheese chips at the bottom of it. The food was all well prepared. The food was tasted from the kitchen 3 times. The food was one time prepared. The food was almost gone. The food came by the kitchen and was served to us for coming in. When we left, the hostess also thanked us, and she asked us to come back soon.
