If you're looking for a tile or paint job, inexpensive is great, but its even better with a guarantee. When looking to do home improvement, the best way to go is with someone so sure of the quality of their work that you don't have to put any money down and only pay as the work is completed to your satisfaction. The downed economy has made things very competitive and I am doing paint/tile jobs for less in order to compete. I get a lot of referrals because I am very neat and thorough and always inexpensive. Painters, tilers, carpenters and drywallers typically bid jobs at \$30-50 an hour or more. You can get a better job for half that price. In fact, no one will do a neater and better job for less. I will give you the best preparation, the best materials and the best application resulting in the perfect job for way less money. Let me come by and give you an estimate so I can show you how you can do a lot for a little and do it right. If you want to work with someone who is good, honest and cares about the quality of their work, give me a call. You can get this project done right for less than you think. Call Tony at
