My name's Andy I fancy myself a story teller, but I'm also a professional who cares about what people need, and what they are trying to say. Are you in a band? Are you a hip hop artist who spits FIRE!? If you need a video shot don't you want to work with someone CREATIVE that WANTS to give you something different and isn't trying to make just a quick buck?

My partner is experienced Producer and director of photography Terry Davis. We have over 20 years of experience between the two of us We can shoot for you in SD or HD. we have dollies, steady cam, crane, lights & green screen.

I love artists like Michel Gondry, who's work means something! Do you want to make something good? something not boring.. something that goes beyond you and your friends performing in some familiar

spot? If so you should let me know.
