In all honesty i see all these negative things about people trying to find their litter of pups homes or etc. Saying not to buy them because its bad or backyard breeders. In all reality YOU should be telling people to take care of the responsibility instead of sending them to the shelter. It is not the breeders fault the owners are neglectful and send them off to a shelter.

The real message is stop getting rid of yours dogs!

Want a puppy? okay then get one from whomever you want, BUT its a long term commitment. Keep the dog or don't get one at all. Plain and.
