A little bit about me. I (male) grew up in Austria moved to Ohio in 2006 for graduate school, and then came to Denver in 2012 to join the faculty at the University of Denver. I like to keep things clean and tidy and I am looking for a housemate who shares this preference. In my free time I enjoy reading, lifting, cycling, hiking, skiing or visiting friends. Although I really like animals, I don't have any pets myself. This is a great place for the serious student or the serious young professional. Both male and female housemates are welcome. No smoking, no pets please.

Please send me an email and I am more than happy to answer your questions either by email or phone.
