QR Code Link to This Post Hello,

I am professional studio drummer offering online drum tracks recording.

If you need to record drums for your demo, songs or CD project, I sure can help you.

Please, describe any general musical preferences you have, or if you have in mind a particular song, sound, groove, influences and/or any other information that can be useful to get the recording performance that you may desire.

I have my own studio recording setup and ready to record, and it makes your recording easy and very affordable. This is a better and less expensive way to get great drum tracks! I offer this service with risk free! No payments are required until you are 100% satisfied and approve the mp3 with the recorded drum tracks.

For rates and more info, please contact me via email.

Thanks.
