

Electrician Needed for Chandelier Install, 3

Location **Ohio**
<https://www.genclassifieds.com/x-734010-z>

QR Code Link to This Post I need a chandelier installed in a very high ceiling in the hallway/stairwell of my house.

I will need a switch installed as well. There is currently a switch in plac for another light at the bottom of the stairs. I'd like to drop in a 3-way switch here so the light can be controlled from the top or bottom of the stairs.

There are two light switches at the top of the stairs. One of them controlls an outlet inside of the adjacent bedroom. I'd like this switch moved to inside of the bedroom and I'd like it replaced with the other 3way switch for the chandelier.

In short that's

1. Chandelier Install with 2 3-way switches
2. Moving an existing light switch to the other side of a wall.

There is an attic above, so it shouldn't be hard to get to this stuff. The house was also built in the 90s

Please be bonded and insured and.
