QR Code Link to This Post Ever see people who just glow? Folks that light up a room with their presence?

In China that quality is referred to as Shen, roughly translated in English as spirit. That usually suggests a healthy body, mind, and spirit. Healthy is radiant, added flash or not.

Have you seen people who may even turn your head with their knockout hair, a nice figure, or some other feature? But after a good look, things just don't quite seem right. . .like that really well done viewing at the funeral home. . .or maybe a tarpaper shack with a fresh coat of paint.

Often it's an unhealthy Shen; body, mind, and spirit not quite working in synch. Unhealthy is never radiant, and no amount of flash can change that.

At Acupuncture & Chinese Medicine we focus on balance. . .on inner health.

Don't blow money and time putting the cart before the horse. Your REAL foundation shows thru any foundation coming out of a bottle. Call today for your appointment at 286-0136.
