QR Code Link to This Post Plenty of people out there are trying to sell you product to help your skin. If you're one of the very lucky few, it may even help a little.

Reality is, folks have skin problems for different reasons. If you think about it, why should one product help everyone with acne (or wrinkles, etc) when there are so many different causes for it?

Honest, long-term answers generally aren't found inside of a bottle or a tube, and they tend not to be a one-size-fits-all proposition.

At Acupuncture & Chinese Medicine, we take the time to find the answers inside of yourself. Then we take the time to help you change course and return to your appropriate center.

Education and lifestyle are the keys to success. Call 286-0136 today to make your appointment.
