QR Code Link to This Post I am professional videographer and provide tutoring to students, professionals and anyone who would like to learn professional video recording or improve their video recording skills. I can create a customized class schedules focusing in exactly what you want to learn. I teach basic, intermediate and advanced video production in addition to how to use specialized equipment such as Steadicams, 3-axis gimbal stabilizers, sliders, jibs/cranes, etc.

I also teach post production workflow to color correct, grade your video footage, and professional sound recording and mastering.

My classes are on a one-on-one basis to ensure I focus on your needs. My lessons include study materials for you to review after each of my classes.

If you are interested in learning any area of video production please e-mail me or call me. I would love to help.
