QR Code Link to This Post Looking for a person great with kids to help watch over them. It would only be from 2:30am until 7:30am. It would be free room and board You provide your own food or can pitch in and we all eat together. My husband and I both work but have this gap we need help with. It's only a few days a week. You would have your own room. Great for a college.
