QR Code Link to This Post Clawfoot dining room table (\$100) with six matching chairs (\$350) and matching china cabinet (\$150). The set is walnut c. 1925 with claw feet on all pieces. The chairs were professionally reupholstered, restuffed and re-sprung two years ago. We will throw in a couple of yards of remnant fabric.

Table measures 46 inches wide and 66 inches long w/out leaves. It has two leaves that measure 21 inches each. The table sits 10 easily with the large chairs, and would seat 12-14 with smaller extra chairs or a banquette.

The china cabinet is 44 inches wide, 18 inches deep and 65 inches tall. It has two glass shelves inside.

The set is in good shape and usable as is, but the table top is worn and could use some work.

E-mail with questions or if you'd like to take a look.

\$600 for set OBO, and will break up.

All serious offers will be considered if you can move it this!
