QR Code Link to This Post I am a professional Kitchen and bathroom remodeler with 30 PLUS years of experience. Previously I worked on Upstate New York in High End Custom Remodeling in these areas. I am factory trained in all areas (tiling, showers, kitchen cabinets, custom design). I worked AS a lead cabinet maker for a well known company AND a plumbing company supervisor Also! I have worked in my home of Indiana for last several years. I was licensed in New York and when I came to Indiana years ago.. I was taken back that there IS NO CONTRACTORS license in this state. License everyone is mentioning IS a business license (aka LLC). Do NOT be fooled. Yes, I can Insure and bond your job as needed through my business license.

text me for all of you needs in these areas for a free quote and consultation. I am professional, curteous, non drinker/non smoker, never arrested, clean cut professional (hey- I even like to run marathans!). You will be happy with the results your project requires. I do NOT keep padding your bill after we have agreed upon a price and the scope of the work.
