QR Code Link to This Post Our local museum has just been donated this rare Fleckenstein Brewery delivery truck from 1946. This truck was stuck in the woods for over 40 years. The local man that owned this truck recently donated it to the museum. They are in the process of getting this truck to run again, motor froze right now. They will also be working on the breaks, gas tank and lines, interior and everything besides the outside paint, which will be left original. They are in search of a bench seat for this Fleck's Caved Aged Beer delivery truck. If you have some parts lying around that you would like to donate to this non profit organization please let me know. Thank you for helping make this possible to get this vintage Fleck's Beer delivery truck running.
