Max Hose: 150 feet  
Medium Duty:

Ideal sprayer for most common applications!

The Graco Magnum XR7 is the perfect solution for maintenance painters, property owners or general contractors with moderate, monthly painting needs. Magnum XR7 delivers added performance and extra output for larger projects. The Graco Magnum XR7 Paint Sprayer handles more heavy-duty coatings such as 100% acrylics and heavier latex because it supports a larger tip size. Power Flush" cleaning makes cleanup quick and easy. Simply connect to a garden hose and clean the pump, hose and gun in minutes.

This airless paint sprayer listed is part of an inventory lift from a major retailer. As a result of this lift, minor scratches may exist on sprayers or frame due to shipping. They have never been used or sold to an end user and are brand new. They have been thoroughly inspected and re-boxed with new packaging and come complete with everything ready to start your project. Each unit will have the same one-year manufacturer's warranty.

Includes everything you need to get!
