QR Code Link to This Post I am looking for 2 or 3 females for a photo shoot in nature. During this fall I'm trying to cover beach, woods, fields and other beautiful spots. Wardrobe would be lace and sheer dresses and lingerie. The look is very soft and ethereal. Must be comfortable with some nudity. The compensation is edited photos.

This is all going towards a couple of future solo gallery shows I'm putting together of my work

Message me if youre interested.

The example photos are my previous work.  
Here's my portfolio featuring this type of work.
