QR Code Link to This Post Cliff purchased 20 some 3 phase electric motors from the local haymill when it closed a couple years back. All different sizes, models, gear reductions and a few motors without a gearbox attached. At least 2 have been professionally rebuilt and never run since. You need to call Cliff @ to arrange a day and time to view these and with questions you may have.

THESE ARE ALL 3 PHASE MOTORS, NOT A SINGLE PHASE IN THE.
