QR Code Link to This Post These awesome boys are the best of buddies. They were rescued from unfortunate circumstances when they were little (they are now 2 yrs old). They eat, sleep and play together, and also enjoy quality lap time :)

Baloo is mitten toed (polydactyl) with beautiful expressive green eyes, and is full of purrsonality. His buddy Obi is a gorgeous, active, orange tabby Oriental Shorthair mix with almond shaped eyes. He will put his "arms" up for attention, and loves head rubs. (At one time they lived with 2 small dogs and did well with them.)

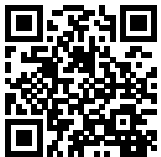

They have had thorough vet care: neutered, all vaccinations (rabies, distemper, FeLV), tested negative for FeLV and FIV, dewormed, microchipped, etc.

These exceptional boys are very intelligent and interactive, and are ready to find their forever home together! Rehoming fee.
