This here deal Trump made with the Jap today is bogus.
The money is coming from Saudi Arabia.
Didn't they send a bunch of terrorists here?
Why didn't they want the findings of the 9/11 Commission as to their participation revealed to us?
Just think,we'll be working for terrorists now.
I guess with gas prices down,they need to make money elsewhere.
What are the 55,000 jobs anyway? Who will do them?
This stinks like camel shit to.
