QR Code Link to This Post I highly advise you as a below the line Non-Union crew member wanting to work or gain experience to not accept jobs that pay under Minimum Wage or to work for Free.

Negotiate a day rate that is at least Minimum Wage.

- Do not work for Free.
- Do not work for Exposure.
- Do not work for Gas Money.
- Do not work for Meals.
- Do not work for Credit.
- Do not work for a copy of the Motion Picture.

This applies to all types of productions.

As a below the line Non-Union crew member a part of the Motion Picture Industry, you should be paid for your work.

Working in this industry is dangerous, requires long hours, and as workers we have the right to proper conditions and pay. We have strength in organizing together.

Say no to working for Free and Low Wages. We can raise what we earn in the Non-Union Motion Picture Industry, by banding together and not accepting Free and Low Wage jobs.
