QR Code Link to This Post I'm always on the lookout for collections of sports cards (baseball, football, basketball, hockey, other sports), Magic the Gathering (MTG) collections or Rare Pokemon cards.

I'm not really looking for any sports cards for the late 80's to early 90's, but am willing to look at any collection for sale. When looking for Magic the Gathering cards I prefer the older cards if possible. I don't play the game but am a collector. But again I am willing to look at any collections for sale. Pokemon cards would have to be the rarer more sought after cards.

If you have something for sale please let me know. Any description of what you have will help greatly and pictures would be even better. Anyone with something to sell can respond to this ad and I'll reply with a contact number asap.
