Little imaginations soar with the Explore & Learn Helicopter. Baby takes the pilot's seat and explores moving propellers, a door that opens and closes, and fun sounds. The Explore & Learn Helicopter teaches baby about numbers, letters, animals, and music.

Red Rover is a memory-matching game combined with run-around play. It features an adorable electronic talking dog and bones with a color and number, shape, or letter. The object of the game is to collect the most bones. The game is set up by placing the bones randomly around a space. The game starts when preschoolers press the Red Rover nose and he calls out which bones he wants. Preschoolers run to find the right bone and feed it to rover. If they're right, they keep the bone. If they're wrong, Red Rover encourages them to go back and find the right one! Whoever helps Rover the fastest wins!

1 cute, electronic talking dog, bones with colors, numbers, shapes and letters  
 Clean, not much used, our child was too old for it by the time he got it, from non-smoking house, in original box

Lamaze Octotunes Musical Music Soft Plush Octopus Child Development Toy  
 Great condition from a non-smoking home. Very cute and soft. Squeeze on legs to hear different musical notes. He is machine washable and smells like vanilla. Measures approximately 12" tall.

all 3 for \$27 or each for
