Moog, Talkbox, Future Funk bass lines, Organ, Rhodes, Clav, Modern Synth.

Songwriters and Producers bring me into their studios or hire me remotely to play leads, bass lines, harmony that keeps the groove moving, etc. Mostly this has been on keys, but my original commitment and formal training is on drums: Jazz, Funk and Blues idioms.

I'm in Amherst and travel well, but it's fast and cheap for me to play these lines for you remotely.

I'm inexpensive, sane, sober, friendly, and I communicate well. The way it works is: you send me a stereo file, let me know what you want. I send you samples until you're happy with it, then a link to a full size file of your keyboard parts. I can upload all this to my database. Pay via Paypal, easy.

Please feel free to email for samples. No obligation to you whatsoever.

Below please find a short list of stuff I have, some of it sounds wicked.
