QR Code Link to This Post Beautiful 3yr old German Shepard Labrador. Brady is up to date on veterinary visits and shots and wonderful with people. He is not fixed, so he is only good with female dogs or fixed male dogs. He is a bit hyper because he is still in puppy mode and needs some training, but he is a good dog. He does sit, lay down, stay, leave it and drop it. He accidentally knocks over my 11month old, so probably best in a home without babies, but very sweet and loving with kids. He is also great with cats. I need to rehome him because I cannot give him the training he deserves. I am not looking for money, just a small rehoming fee to be sure he is going to a loving home. I will send him with his favorite toys and.
